

ARP 95C

PIVOT-STEER TANDEM ROLLER

EU STAGE V / U.S. EPA TIER 4 FINAL

APPLICATIONS

- Medium and large jobsites
- Transport construction (municipal and town roads, motorways, airfields)
- Building construction (houses and industrial zones)

PRODUCTIVITY

Pivot steering with split drums

Enables higher manoeuvrability on jobsites and reduces surface shear forces.

Ammann Traction Control

Increases machine traction on difficult jobsites and makes machine loading easier.

Multiple vibration frequencies

Varied vibratory settings increase or decrease compaction output for precise compaction control and higher quality.

ERGONOMICS

Fingertip steering (FTP)

Ergonomic steering system makes the machine operator-friendly and easy to control.

Multi-functional display

Central display is located in front of the operator for optimal machine control and monitoring.

Exceptional operator visibility

Perfect all-around machine visibility to maximise safety on the jobsite.

SERVICEABILITY

Tiltable cab and wide engine doors

Exceptional accessibility to all major components and service points.

Maintenance-friendly design

High focus on easy maintenance and robust design to minimise downtime.

Ground access to service and maintenance points

Fast and easy machine servicing; no additional tools required.
